To whom it may concern

I can confirm that Kaylee Pawley is raising funds in aid of Cardiomyopathy UK through the Snowflake Ball 2024, being held on the 30<sup>th</sup> of November 2024. We would be truly grateful for any support you're able to give towards her fundraising.

Cardiomyopathy UK is the only specialist UK charity for people affected by cardiomyopathy, a group of conditions that affect the structure of the heart and reduce its ability to pump blood around the body. We're here for those who have just been diagnosed, those living with the condition and for families and friends who need support or advice.

Our services include:

- ✓ Free cardiac nurse helpline (0800 018 1024, 8:30am – 4:30pm Mon to Fri)
- ✓ Support groups and peer support over the phone
- ✓ Wide range of free, expert information resources
- ✓ Online education for healthcare professionals
- ✓ Specialist support for parents, children and young people living with cardiomyopathy

Cardiomyopathy is the leading cause of sudden cardiac death in under 35-year-olds. That's why we also raise awareness of cardiomyopathy, so that more people can be diagnosed early. We know that people living with cardiomyopathy don't always receive the care and treatment they need, so we campaign for improvements and promote research that could mean one day, everyone diagnosed with cardiomyopathy can live a long and full life.

Our work is only possible thanks to generous donations and every contribution is greatly appreciated. Should you require any further information, please don't hesitate to get in touch by contacting [fundraising@cardiomyopathy.org](mailto:fundraising@cardiomyopathy.org), we're always happy to share more information about our work.

Thank you in advance for whatever support you can give.

With warmest wishes,

**Chloe Christie**  
Fundraising Officer
